Meet the Team behind the *In Gold We Trust* Report

In Gold We Trust Report

Richard Knirschnig

Quantitative Analysis & Charts

What is your role, and what makes working behind the scenes of In Gold We Trust so special to you?

I focus on quantitative analysis turning data into signals, context, and, ideally, clarity. What makes working behind the scenes so special is that no two days are alike.

Where in the world are your working from?

Vienna, Austria

Gold is considered the ultimate "safe haven".
Where is your personal “safe haven” to recharge your batteries?

Tennis court.

At In Gold We Trust, we think a lot about the future. If you could travel 20 years into the future: What is one thing you hope remains unchanged?

For myself: good health, for the world: sanity (if it’s not too late).

What makes the In Gold We Trust Report truly unique?
Is there a memorable story, fun fact, or number that comes to your mind?

The intellectual independence and extraordinary scope of study. The year 2018 remains particularly memorable and special to me, as it was the first edition to which I contributed.

TEAM SPOTLIGHT

Meet the Team behind the *In Gold We Trust* Report

What has been your most memorable moment since joining the In Gold We Trust team?

The trust and freedom received on my very first day. Over the years, that trust has continued to grow to the point where I have been entrusted with writing my own chapter for each edition.

Imagine you were gifted a real, heavy gold bar today; on the condition that you cannot sell or invest it. What would you use it for?

Occasional flexing.
